MONT CERVIN PALACE

ZERMATT

Zermatt, at the foot of the majestic Matterhorn, is a world without cars. Electric-cars and horse-drawn sleighs or carriages are the only means of transport allowed. Zermatt, with its wind-protected southern location, embraces three skiing areas which enjoy superb snow conditions and the longest skiing season in the Alps. The 313 km ski runs include slopes ranging from the simplest to the most challenging.

EASY

Spend a day or a night in an igloo: Located above Rotenboden on the Gornergrat side.

Winter hiking: Zermatt offers special theme hikes covering a total of 45 km of prepared routes.

Snow Cat: Catch a ride on a ski-run vehicle at night and experience the incredible solitude and magical splendour of the quiet, white slopes.

Glacier Paradise: In the Matterhorn glacier paradise there is an ice palace 15 m below the surface of the glacier with a selection of fairytale ice sculptures.

Gourmet Mountain experience: the Zermatt mountain restaurants are our top trump: cosy, friendly and very tasty.

Village tour: Learn about the past and the present on a tour of the village.

Fondue night: enjoy the typical cheese menu in a cosy mountain restaurant above Zermatt.

LIGHT

Sledging: The Rotenboden-Riffelberg toboggan run takes around 10 min. to ride and promises a lot of fun.

Snowshoe hiking: Get away from the ski runs and out into the untouched countryside.

Nordic walking: On the gourmet and winter trail.

Ice-skating and Curling: Our ice is hot. Ice skating on a natural and an artificial ice rink for young and old alike. The natural ice rink offers visitors the perfect winter outing with a wonderful mountain backdrop and view of the Matterhorn.

ACTIV

Ice-climbing: Ideal beginner area in Findelbach Gorge: a wide waterfall, not terribly steep, 45 m high.

Gorge Adventure: Immense masses of water thunder through the narrow Gorner gorge, about a kilometre of which is crossed during the Gorge Adventure: by abseiling, ropeways and fixed rope routes.

Paragliding: Take to the air with a paraglider. See the Alps below you and enjoy total freedom.

Heli-skiing: an unforgettable experience in the middle of no where.

Above mentioned activities are only a selection of all the possibilities. Let us know what you are looking for and we will be pleased to help you find it.
